***Restriction/Election***

1. Applicant's amendment and response filed June 8, 2004 are acknowledged.

Claims 30-47 have been added.

2. In view of Applicant's amendment, it is the position of the Examiner that the newly presented claims contain multiple independent and distinct species and is therefore subjected to an election of species requirement. It should be remembered that Applicant elected, Group II, claims 7-10 in the response to the restriction requirement filed October 30, 2003.

***Election of Species***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121: Newly added claims 30-47 recited distinct secreted polypeptides based on structural differences. Applicant is required to elect a species of secreted polypeptides and provide SEQ ID NOs. that correspond to each member of the elected species.

Species A, comprises CPn0026, CPn0067, CPn130, CPn146, CPn174, CPn186, CPn211, CPn0243, CPn0277, CPn0284, CPn0292, CPn0357, CPn0365 and CPn1027.

Species B, comprises CPn0028, CPn0049, CPn0066, CPn132, CPn220, CPn223, CPn226, CPn0267, CPn0648 and CPn0829.

Art Unit: 1645

Species C, comprises CPn0009, CPn0063, CPn0167, CPn175 and CPn0181.

Species D, comprises CPn0105, CPn0287, CPn0330, CPn0334 CPn374, CPn379, CPn705, CPn0710, CPn0711, CPn0820, CPn821, CPn1016 and CPn1022.

Species E, comprises incA, incB and incC.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1645

6. Because these inventions are distinct for the reasons given and have acquired a separate status in the art because of their recognized divergent subject matter as shown by their different classification, restriction for examination purposes as indicated is proper. Moreover, in the absence of restriction it would place an undue search and examination burden on the examiner.

7. Applicant is advised that the reply to this requirement to be complete must include an election of invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

Art Unit: 1645
